CASTS TALKS

Nonlinear ODE in Complex Form

Monodromy of hypergeometric differential equations

2014 - 05 - 13 (Tue.)
10:40 - 12:20
308, Mathematics Research Center Building (ori. New Math. Bldg.)

In this talk, I will introduce four different ways to find the monodromy of the hypergeometric differential equation. The reference is Section 2.4.4-2.4.7 in the book \"From Gauss to Painleve: a modern theory of special functions\".
