CASTS TALKS

A Mini-Course on Computational Fluid Dynamics

Numerical methods for the sSimulation of incompressible viscous flow: An introduction (Part3. & Part4.)

Prof. Tsorng-Whay Pan

2017 - 12 - 19 (Tue.)
15:20 - 17:00
308, Mathematics Research Center Building (ori. New Math. Bldg.)

3. Iterative solution of the wave-like equation method for the advection subproblems 4. Iterative solution of the Stokes type subproblems.
