

## A Mini-Course on Computational Fluid Dynamics

*Numerical Methods for the Simulation of Incompressible Viscous Flow: An Introduction  
(Part5. & Part6.)*

Prof. Tsorng-Whay Pan

2017 - 12 - 20 (Wed.)

14:00 - 15:00

308, Mathematics Research Center Building (ori. New Math. Bldg.)

---

5. Finite element approximation of the Navier-Stokes equations. 6.  
Numerical results
