

## Numerical Compressible Flow

*Physical model and governing equations*

Prof. Chien-Cheng Chang

2019 - 03 - 13 (Wed.)

09:20 - 10:40

103, Mathematics Research Center Building (ori. New Math. Bldg.)

---

1. Fluid as continuum
2. Local kinematics
3. Lagrangian & Eulerian descriptions
4. Mass conservation
5. Momentum conservation
6. Energy conservation
7. Equation of state & thermodynamics
8. Equations in conservation form
